Native Spanish
English B2

EXPERIENCE

2021 - 2023   **EAM UNIVERSITY INSTITUTION**
RESEARCHER AND SOFTWARE DEVELOPER
- Investigate the structural requirements and design in the project "Design of mobile applications to track public transport buses in Armenia" following a research methodology and a waterfall model.
- Manage time, set priorities, and meet targets for project completion using Jira and git for version control, as well as using Docker for cloud containers and Postman for endpoint testing.
- Develop and deepen the use of Java, Flutter, Angular, TypeScript, and Spring Boot technologies, together with the collaboration of other developers, and contribute to the achievement of the project.

2021 - 2022   **COLSUBSIDIO**
SOFTWARE DEVELOPER
- Design, build, and maintain applications and websites using HTML, CSS, JavaScript, Angular, and TypeScript technologies.
- Manage and position the page in search engines using Google Search and Yoast SEO tools.
- Project management using the Jira tool. Management of CMS such as HubSpot and WordPress.

2023-2024   **NINTENDO**
AGENT
- Provided technical support to Nintendo customers in the United States and Canada through the Accedo BPO. Efficiently resolved technical problems and ensured customer satisfaction through effective communication and precise solutions.
